The Centro di Formazione Professionale offers students a curriculum based on technical and workshop experience.

In vocational training courses, students will focus on work-related technical subjects. These courses include many hours of practical activities in workshops and internships in real work places. Vocational training provides knowledge and skills to enter the workforce.

The student who chooses this type of school must be oriented and prepared for entering the force work and be motivated and passionate about their target profession.

CLASSROOM STUDY ACTIVITIES

At the vocational training centre, basic subjects (mathematics, Italian, English...) are handled in a more practical way. All students have a Tablet at their disposal.

ITALIAN AND COMMUNICATION, ENGLISH, HISTORY, MATHEMATICS AND SCIENCE, INFORMATION TECHNOLOGY, ORIENTATION, P.E., ETHICS, FOOD SCIENCE

INTERNSHIP ACTIVITIES

The internship is an integral part of the training course. It takes place in a company and it is a practical experience aimed at learning the target profession.

| | |
